Measure: HB2006

Ridiculous. Democrats want to lower the age of voting- while also raising the age to buy a gun. This is so hypocritical that it is laughable. So an 18 y/o can enlist in the military, get married, vote, drive, all these other things with way more consequence than buying a gun. But now they have to wait until 21 to purchase a certain type of gun? And let's not pretend- this is only a gateway to slowly removing the ability to buy any gun until someone is 21.
