

Submitter: Zachariah Bubar
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2005

To whom it may concern,

I being a law abiding gun owner, husband, father and citizen oppose this legislation as it will severely impact my ability to protect my family and myself from threats both foreign and domestic. Too many times have we seen the same thing over and over again, we blame the tool instead of the person using it to commit the act of evil. We DO NOT need more gun laws, we need more morality and higher standards in our society again. This is just the first step in stripping our rights and freedoms away, and I'm here to say, NO MORE and NOT ON MY WATCH!!
