Measure: HB2005

I 200% support HB 205, 206, 207

No person under the age of 21 should own a weapon that can kill people. All persons owning a firearm

Should undergo a background check and a waiting period and in addition, you should obtain a permit, a license and education in using that firearm - we should also be banning assault weapons, and all high capacity cartridges for sale to non-law-enforcement individuals.
