

Submitter: Randell Embertson

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2005

The citizens of the United States and of Oregon have a Constitutional right to keep and bear arms and this right shall not be infringed. The states with very high and strict gun laws are also the states with the highest crime and murder rates. By adding an additional and unnecessary barrier for law abiding citizens to purchase and use firearms creates a more dangers and hostile community susceptible to more violent crime. I am requesting the legislature to vote "no" on this bill.
