

Submitter: Sean Harvey

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB3090

I'm opposed HB 3090 - it's absurd to ban flavored nicotine products when we have legal cannabis products like gummies and other candies that are sweet thus masking the natural flavor of cannabis. It's morally inconsistent.

This bill also gives no consideration to traditional products such as pipe tobacco and premium cigars which are unfairly targeted in this bill. When is the last time you saw a high schooler puffing on a corn cob pipe in the school bathroom between classes?

I urge the house to vote no on this bill or at least provide exceptions for traditional products like cigars, pipe tobacco and hookah as California did in their "flavored tobacco ban".

Sincerely,  
Sean Harvey of Portland
