

Submitter: Jessica Resch

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB3090

Dear Chair Nosse and member of Committee

Hi, my name is Jessica, I'm from baker city Oregon I work for a small local vape store. I ID every person in our store, and we watch for those buying for underage kids and we have stopped it several times!! This is a bad bill in so many ways, bad for businesses, bad for the state, and bad for the people. This country is supposed to be the land of the free, free to choose what we want to put in our bodies or not as adults and taking that right away will not protect kids from nicotine addiction. I have made 100% sure my two teenagers and several of their friends put down vapes as quickly as they picked them up. I am more worried about the illicit drugs made legal and are now taking away something that has proven itself time and time again to help those quit smoking cigarettes. I am in this business to help people like keeping the black market smaller and that is my opinion working in this industry. Thank you for your time and consideration.
