

Submitter: Ronald Burkholder
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2005

As a lifelong resident of Oregon, I whole heartedly disagree with this bill. The nonstop attack on our ability to practice our constitutional rights has to stop and it needs to stop now. This bill makes criminals out of law abiding citizens.

I know that the odds of our elected officials acting with common sense is extremely low and this bill will most likely pass but out of desperation I am writing you to please listen to reason and not pass this bill. The arguments for this bill passing are so blatantly false that it would be funny if it weren't so tragic. A civil conversation with a firearms expert would clear up many misconceptions about this topic and I encourage those who favor this bill to do some due diligence and honestly look at this and ask themselves if this is going to fix our problems or will this create a whole lot of new ones for lawful people that have done nothing wrong.

Personally if this bill passes, I will no longer be a resident of this state and take my business with me,

I can guarantee that I am not alone in this. I love my home state and I don't want to lose my home but if I have to chose between my home or my rights I'm choosing my rights.

If you've read this far then thank you for your time.
