Measure: HB2005

House Committee on Judiciary: It would be beneficial if our house committees would give a copy of the constitution to the writers of the bills. Bill of Rights Amendment II states-right of the people to keep and bear arms shall not be infringed. There is a segment of population whose agenda is: taking guns from responsible citizens, while leaving them in the hands of criminals. . HB 2005, HB 2006 & HB 2007 are a waste of taxpayers money and infringe on We The People Rights! Privately made firearms are legal now. Why waste the legislature's time working against private citizens that are doing their part as law abiding citizens. The committee is to listen to We the People and are not to follow their own private agenda. Please read the Constitution and throw out Bills that the Constitution does not support. Bottom line is this committee wants to control The People. Thank you
