

Submitter: Carla Orr
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB3390

It is way past time to make sure animals are treated in a kind and compassionate way. It is hard for me to understand the way animals on fur farms are treated. Who would want to cause such pain and needless torture to them? The way people treat animals is a good indicator of their character, morals and ethics. Hopefully, Oregon shows this state stands for compassion and high standards.
