

Submitter: Tarun Sethi

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB3090

To Whom It May Concern:

I am Tarun Sethi. I own Town Market in Jackson County. I OPPOSE The Total Tobacco Flavor Ban.

My business partner and uncle own twelve stores in the state of Oregon . We employ a lot of people and serve a large population of Oregonians. We are close to California state line, and the Californian just drive across state lines to buy our vapes after the ban in California . All you would be doing is forcing Oregonians to the next state that has them and helping the Black market for vapes grow.

We will suffer with the loss of revenue and customers if this ban is passed. We card everyone ! Please vote NO on this Total Tobacco Flavor Ban.

I have a lot of older ppl / veterans who has been through a lot n one way for them to manage there stress is smoke what they like, it will be a huge inconvenience for them to try to go to another state to find what they have been smoking for last 30+ years and it's even harder for handicapped senior citizens. I would really love not to disappoint them. And I forgot the name of young lady but I totally agree with her saying if we want our youth to stop smoking we should enforce laws and should educate them than actually banning all the flavors which effect other ppls life.
