

Submitter: Dave Quirk

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2006

If a person can fight and defend their country at age 18, then they should be able to publicly own and operate their own firearm at the age of 18. I am against any bill that is categorically against the Second Amendment and what it protects, when only law-abiding citizens will suffer. Criminals don't follow the law! You are asking the population to disarm itself and be allowed to be soft targets. Not one gun control act has lessened criminal activity, nor has any crime been committed by a concealed carry holder. This bill (and any other similar to follow) is aimed at the wrong population. Let's stop this now!!
