

Submitter: Starla Becker-Tillinghast
On Behalf Of: Myself
Committee: Senate Committee On Natural Resources
Measure: SB85

Chair Golden and Members of the Committee;

I respectfully ask you to stand firm with 85-1 although I am in favor of the Dairy cow limit being increased to what each side would feel like is a good number. As it stands Dairy Cows are 2500 will Beef is 3500.

I oppose 85-3 because the "chicken people" will build the tier one and wait it out then build the rest of the barns when they can. They take advantage of every loophole they can. The stories from other states are so numerous there isn't time to go through them all here.

I believe good setbacks of both the broiler barns and the manure from water and people, ammonia scrubbers, and nonpermeable floors could make a world of difference.

Thank you for all your hard work.

Sincerely,

Starla Becker-Tillinghast
