

Submitter: Randy Latuska

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2005

Building your own firearms has been a tradition in this country for hundreds of years and it will not change no matter how hard you try. It is often cheaper to build a firearm than to buy one. Stop trying to attack those who like to tinker and those who don't have the financial means to buy a complete firearm off the shelf. This will do absolutely nothing to save lives and will only add to the pointless red tape that this state is known for. How about we focus on actual problems like the failure M110 and the addiction crisis that is plaguing our communities. People are dying daily on our streets from addiction and this is what you are focusing on? What a joke.
