

Submitter: Hannah Grandey  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure: HB2006

Please vote yes for HB 2006. This would save lives, because young people age 18-20 statistically commit gun homicides at a rate nearly 3 times greater than adults 21 and over. They need to wait until they are 21 to possess firearms that are seriously dangerous when they are at an impulsive age. I understand there are exception for hunting, so the bill would not affect that freedom.

Thank you,  
Hannah Grandey
