

Submitter: Colby Nelson
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2005

This bill is a desperate reach to disarm legal gun owners and restrict the rights of law abiding citizens. No legitimate criminal is going to attempt to manufacture their own weapons when stolen and trafficked weapons are as readily available as they are. Not only is it more expensive for a criminal to manufacture their weapons, it requires a certain amount of meticulousity, dedication, and effort that someone looking to commit atrocities is likely not willing to exhibit. This bill is nothing more than an unreasonable restriction on an otherwise safe and completely legal hobby.
