

Submitter: Abram Zitterkopf
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2006

Dear legislators,

Making it illegal for my eighteen year old to own and use a firearm for personal use including hunting is nonsense. The bills overreach claiming safety and those not twenty one are somehow a new danger is nonsense and in no way based in fact. Number bending and hand selecting data is also exactly why people like me don't trust those crafting such divisive misleading trash. I'll be sure to share with other the voting record of those endorsing house bill 2005.

Abe Zitterkopf
