

Submitter: Caleb Farmer
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2005

Manufacture of firearms has been long protected by the supreme, circuit, federal, and state courts for centuries, and criminalization of this is nothing short of an attempt to disarm law-abiding citizens and make them subordinate to the state and military. This stands directly in contravention to the well documented intent of our nation's founders and cannot be opposed vehemently enough.
