Measure: HB2007

The Second amendment is not absolute and I believe it is secondary to polices prioritizing general public safety as opposed to individual rights or safety. Therefore, I wholeheartedly agree that various municipalities, city, and county governments should be able to opt in to adopt polices that ban concealed carried firearms in the name of public safety and the greater good than an individual's right to self-defense in a public place. I believe that such municipalities should be able to use discretion to ban such concealed carried firearms accordingly.
