

Submitter: Greg Pittman  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure: HB2007

This is a backdoor instrument to disarm the population of law abiding citizens of this once great state. I ask you as a legislative body... do you even know what is involved for a private citizen to acquire a concealed carry permit? These are people whom are fully vetted and "trusted" to go about their daily lives without a concern to anyone and have the protection from harm that our law enforcement cannot provide. The passage of this bill will create a potential problem for those people that does not exist today... why is that acceptable to you as a legislative body? Why do you feel the necessity to even discuss this topic on the tax payers dime? It is evident that the direction this state is headed is for more lawlessness by design. Please enumerate the cases where this has been a problem with actual events... not just feelings. The people who follow the laws are the only ones that will be affected by these useless and unnecessary laws and it seems those are the people that are specifically targeted as of late...
