

Submitter: Scotty Dalton
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2005

Our constitutional rights have been attacked over and over. These bills will violate our 2nd amendment rights. What about knives, hammers, baseball bats and cars. They kill more than guns. The state should be focusing on mental health issues, gang violence, early release of violent criminals and drug abuse. Go to the root cause and not make law abiding citizens pay the price. Hurting disabled citizens by de-arming them and law abiding citizens of protecting themselves or loved ones.
