Measure: HB2005

To Members of The House Committee On Judiciary,

Oregon does not have ANY laws in place restricting or prohibiting ghost guns. They are too easy to make at home from parts that can be bought off the internet with no background check and no questions asked. They are becoming the weapon of choice for gun traffickers and those who are prohibited from possessing firearms ie convicted domestic violence abusers and possibly teenagers seeking to harm others or themselves.

Please help save lives by prohibiting undetectable and untraceable firearms!!

Thanks you.
