

I strongly oppose HB 2006.

This bill reflects a state of total confusion and inconsistency with this legislature. With so many proposed bills you are trying to overwhelm the public with, you have apparently confused yourselves in the process.

At which age do you define an Oregonian as an adult and what rights and responsibilities do you assign them? 15, 16, 18 or 21? Ability to drive, have an abortion, have a sex change, join the military, own a firearm, vote?

Leave the age to own a firearm at 18. There is no need for more laws that restrict firearms for law abiding citizens. Please focus your energies and tax payers' money on supporting the enforcement of the existing laws to apprehend, prosecute and punish violent criminals responsible for drugs, sex trafficking, theft and rioting!
