

Submitter: Camron Newman

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2006

I firmly oppose this measure. I want my children and grandchildren to be able to freely acquire firearms for lawful purposes without additional restrictions. Young people deserve to be able to protect themselves, Target shoot, hunt, or even just collect firearms, and don't need to be treated as second class citizens because even though they are an adult, they just aren't adult enough.
