

Submitter: Alex Fosses  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure: HB2007

I think those that have a conceal carry permit, CCP, in a gun free zone, have the potential to save lives. I remember a few yrs. ago a church shooting, where a parishioner shot a bad guy, after the bad guy had shot 2 members of the church. If that good guy wasn't packing...That could have turned into complete carnage...It's also well know that school shootings don't happen at schools, that have signs that some members of the staff are armed...Wonder why that is...?

It's unfortunate, but this is what happens when a society, won't care for their mentally ill...And won't prosecute, to the fullest extent of the law the criminals that live among them...
