

Submitter: Michelle King
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB3390

I strongly oppose HB 3390 As an Oregonian and United states citizen this state was founded by the fur trade. I grew up as many kids in school learning about Davey Crockett and watching Grizzly Adam's on tv. I am a very proud hunter as both my parents and there parents and my siblings and daughter. This isn't something that we just do it is who we are as human beings we are caretakers of our lands this is how we feed our families . If this bill passes we will be loosing so much more than what is on that piece of paper. We live in a cancel culture world and are loosing who we are as stewards of this land from people who have never heard a bull bugle or two bucks in rut locking antlers or turkeys gobbling. Please think about us the country folk that are out here teaching our children the true meaning of life and what it means to be a caretaker of this land here in oregon just as our fourfathers founded it on fur . Can you imagine not being able to tie a fly fishing lure or fletches for your arrows for your traditional bow because I cannot ... Please don't cancel us out . We don't want yet one more thing for our children to not be able to learn and partake in keeping our history relevant I know for me and my family and friends this is our entire lives and hope that you will help protect our future by opposing this bill for our great state of Oregon.

Thank you for your time.
