Measure: HB2007

The issue I see with this legislation is criminals do not obey laws. This type of law only keeps law abiding citizens from being able to protect themselves. Will this law mandate a police presence where a law abiding citizen can not carry to protect themselves? The Oregon powers that be have been non supportive of law enforcement so now the only ones armed are criminals?

There is also the issue of the Second Amendment that allows an individual the right to posses a firearm that this likely violates.
