

Submitter: Christine Rasmussen
On Behalf Of: HB 3436
Committee: House Committee On Revenue
Measure: HB3446

Haven't we been hurt enough??? We are all working so hard to bring back our little town that was pretty much completely destroyed.

We are not only rebuilding but repairing and replacing water lines, septic damage and tree and shrub loss. The expenses that are not always fully insured. Inflation is killing us with rise in prices.

HB3436 will help all of us that are still paying to get something recognizable back.

Sincerely,
Carl and Christine Rasmussen
