

Submitter: Josh Hurlbert  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure: HB2006

This is not ok! The people this bill effects are able to fight for this country and are willing to risk their lives. You want to make them defenseless and are telling them they are not old enough to have a firearm. You will sure as hell let them have one if they decide to join the military. You should be going after actual criminals not try to make them. 2A states " the right to keep and bear arms Shall Not be infringed" You do not get to decide what is best for us. We The People, not we the government. Put your effort and all this energy into holding actual criminals accountable.
