

Submitter: Genny Bond
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB3390

To the Chair and Members of the Committee, as an Oregon resident, I strongly support House Bill 3390 prohibiting the sale of new fur products in our state.

In the U.S., there are no federal laws requiring regular inspections of fur factory farms. Animals suffer, typically in buildings with little to no light, very little airflow, and in cramped confinement. Slaughter occurs via gassing or electrocution, to preserve the fur product. Aside from the cruelty during life for these animals, the products used in their slaughter and processing of the fur products are toxic and create environmental impacts.

HB 3390 creates commonsense policy.

Please support HB 3390.

Kind regards,
Genny Bond
