

Submitter: Derek Becker
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB3390

Members of the Committee,

I oppose HB 3390 as it is just another "feel good" bill designed to further destroy agriculture; yes, the harvest of pelts is part of agriculture. We do not need more laws limiting farming, ranching, hunting, fishing or living off the land.

Here's an idea for the legislature; how about passing a law that lists the activities we are allowed to participate in and make everything else illegal and punishable with jail time. That's what they do in communist countries; and that's where we are headed.

Stop with the banning of everything. This bill exemplifies the R.R.O.B. principle. Regulate, Restrict, Outlaw and Ban!!

Respectfully,
