Measure: HB3390

I strongly oppose this bill. It is a way to do nothing but shut down industry in the state of Oregon. Fur is a sustainable natural or farmed resource with many uses. From fishing lures to garments, pillows, blankets, and many other uses. To shut down the use of fur is absolutely absurd. This makes every one who owns a rooster tail fishing lure a criminal. Now how dose that make sense. Fur is harvested in a humane regulated method, and provides a multitude of uses, and provides substantial income to the state of Oregon. Not to mention trapping and fur sales are a way for trappers to provide a service to the state by managing predators, and being able to make up for some of their cost. This is nothing but a back door way to shut down a heritage and way of life.
