

Submitter: Lori Trask
On Behalf Of: D01-0283253-6502610
Committee: House Committee On Judiciary
Measure: HB3390

This is another bill that is not needed in this country! The trappers regulate the population of beaver, nutria and other water animals so they don't overrun the available habitat. Ranchers sell the butchered hides to provide leather and other goods made from them. There is a purpose for all things, and if not used, then it is wasted! Just stop trying to ruin this state!!!
