

Submitter: Suzanne Gagnon

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB3390

Please support this measure. Let's stop the cruelty to animals. We have much better materials to use for fashion and warmth than animal fur, and the pelts look much better on live animals than they do on people. I have a hard time thinking about the suffering endured by these animals for such an insignificant reason as fashion. In this time of intense cruelty among humans that we can't seem to control, let's control what we can. We have dominion over our animal brethren, so let's give them the respect they deserve. Stop the cruelty.
