Measure: HB2007

Ok sure, let's go after the honest citizens. The ones who obey the rules, have passed multiple back ground checks, have gone through safety and weapons training, and are committed to protecting themselves, their families, and their communities. That is who this law will affect. The "Bad Guys", ones with ill intent, will ignore this law the same as they ignore every other law they intend to break. Including murder, robbery, etc. They are bad people with bad intentions. They break laws. That's what they do. The honest citizens of this state have the right to defend themselves and that CANNOT be taken away.
