

Submitter: Erick Browning
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2007

Dear representatives/senators,
I think that most of you have lost touch with your constituents. You have ALL allowed our state to become a disaster and continue to tax us to death to fund your failed projects. Your job is to represent US, not George Soros, not Kate Brown, and not Tina Kotek. Your responsibility is to THE PEOPLE. Focus on your administrative duties and cleaning up our state that you have allowed to suffer. Look around you and see the disaster that has your fingerprints all over it, free drugs, free handouts, countless homeless camps populated by many people who come here from out of state for the handouts paid for by US.

Stop violating the Constitution of our nation and our state. These proposals are all un-Constitutional and have been found to be so in courts across our nation. Stop trampling our rights to fill your pockets with pay-off money from the leftist cabal. Do your job, obey the Constitution...

Look at this bill... It directly attacks those of us who have passed every background check imaginable, background checks that some of you, or "elected officials" couldn't even pass. We are the safe ones, and when you all give a free pass to anarchists and criminals who have destroyed our cities it makes you out to be hypocrites.

Erick Browning
