

IN SUPPORT OF HB 3390

I am in support of banning the sale of all new products made with animal fur from any species at all. The practices of fur farming are cruel and abusive and have no benefit to humanity. Fashion is an indulgence that does not constitute a reason for the inhumane treatment of animals. I buy no fur products myself, and even go further in avoiding all leather products. I hope that Oregon will join California in the banning of all new fur products, and that other states will follow our lead.

I also have increasing concerns about animal farming practices exposing humanity to more pandemics. We cannot afford to have another pandemic. We just can't.

Sincerely,
Pangaea
