

Submitter: Rhett Metcalf
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2006

This bill will not save any lives or make anyone safer. If a criminal wants to carry out an act of violence, they would not care to violate this law. At the same time, this bill will reduce public safety, removing life saving tools from the hands of responsible citizens. This is also a clear violation of constitutionally guaranteed rights under the 2nd amendment. Money would be better spent improving education and mental health for young adults. We ask 18-20 year olds to serve our military, and then deprive them of their rights to self defense at home. Doesn't make any sense.
