

Submitter: Rebecca Roth
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2005

This will not stop crime, and makes criminal the making of guns. I heard Moms Demand Action saying they wanted to confiscate all firearms like they worked to do in Australia, but usually they say they just want "commonsense restrictions"--please be aware that their goal is confiscation.

This is an unconstitutional limitation on the right to manufacture for personal use a firearm which has never been involved in a crime. Law abiding citizens have the right to manufacture firearms.

Let's not do what tyrannical governments do and limit law abiding citizens from the free exercise of god-given rights.
