

Submitter: Christine Runyon  
On Behalf Of: Peta  
Committee: House Committee On Judiciary  
Measure: HB3390

To use any animal at all that inflicts pain, confusion or fear for any reason at all is evil and lowers us as human beings. We must protect those who feel pain physically or emotionally at all costs. Animal or human. Most people would never approve of this. Most do not know... We don't need anything in our society that would require such things on these precious beings that God has given us as gifts. It's a disgrace and it must stop!
