Measure: HB2006

Chair Kropf, Vice Chairs Andersen and Walan and members of the House Judiciary Committee:

I am writing in support of HB 2006. I am concerned about the ease with which people can buy firearms in our communities already. If we can keep young people from having as many guns, we will certainly prevent more loss of life among our families. I have a teenage daughter whose volleyball teammate was the victim of gun violence, catching a stray bullet in the head, while out with friends. It's not okay. We need to protect our children, and all in our communities.
