

Submitter: Jacqueline Russell

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB611

Measure SB 611 needs to be passed. Rent prices are out of control in Oregon. There isn't anything affordable about the new building or old build in the state. I can't afford to pay over 3/4 of my pay just for rent. True I wanted to lose weight, but I didn't I would have to choose between rent and eating. I know it is not just me there are many people in the same boat. This is already happening, we have a new class of homelessness in Oregon it's called the working class where people live out of their cars and join a gym to shower to go to work. There has to be more than just existing. OREGON Senate pass SB 611.
