Measure: HB2005

I strongly oppose HB 2005. The right of an individual to make their own firearms for personal use is a long held constitutionally protected right. Many Oregonians have legally made firearms for personal use without serialization or identifying marks, and the passage of this bill would cause irreparable harm to these residents. It would make criminals where there are none, without stopping criminals who intend to do harm. In addition, it is highly likely to be struck down in the courts because of the legal doctrine that has been set by the NYSRPA V. Bruen decision. Passing laws that don't meet the Bruen standards of text, history, and tradition, results in a heavy burden of tax payer money and time while it goes through the court system, as this bill undoubtedly would if passed.
