

Submitter: Brenda Barr  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure: HB2005

Regarding HB2005 Banning of homemade Firearms

I am opposed to passage of this bill. The Oregon Legislature is, under oath, to represent and protect the rights of all Oregonians, not simply design and shove through bills that make otherwise law abiding citizens into criminals. If any of you ever read the United States Constitution and Bill of Rights you would know that none of you has the authority to abuse those rights in any way under the pretense of 'bills to save lives'. It is simply your arrogant audacity to try to force free individual citizens to conform to your Marxist, political agenda. If you took notice of real true statistics, you would find the greatest number of gun violence incidents occur in democrat-ic cities and states where strong gun bans have been put in place. You purposely ignore criminals committing crimes at an ever increasing rate, and are freeing them by the dictates of a corrupt District Attorney and other corrupted politicians, and yet want to punish free individual law abiding citizens. We already have laws on the books regarding a variety of crimes. Please enforce the laws we already have based on the United States Constitution and Bill of Rights and not your personal political bigotry. This bill is nothing more than quartering soldiers in our homes. Again, read the United States Constitution and Bill of Rights. You may also benefit from reading true history. It is well known that several other country's corrupted, power hungry dictators always make laws banning firearms-just before they start rounding up the newly unarmed citizens. How is what you are trying to do now in the Oregon Legislature any different from those dictators?
