

Submitter: Albert Porter
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2007

To whom it concerns,

HB2007 is a disaster, and there is absolutely zero justification for this bill. This targets a group of society that has gone through stringent background checks above and beyond the basic checks to purchase a gun, all to determine that they are not a danger to society or ever have been. This targets Oregonians who are the absolute least likely to commit any crimes, and somehow this is supposed to improve public safety? This goes against the US and Oregon constitution, as well as many federal and Supreme Court rulings. Vote against this bill and save the taxpayer money that will be wasted trying to defend this garbage in court against the many lawsuits that will be filed.
