

Submitter: Beth Berghofer

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB3390

Raising wild animals in inhumane conditions only to slaughter them for their fur is barbaric & wasteful.

I'd like to see Oregon set an example for other states by putting an end to this awful industry.

I'd also like to see any surviving animals go to accredited rescue facilities where they can live out their lives in comfort they've never known.
