Of:

Committee: House Committee On Agriculture, Land Use, Natural Resources, and
Water

Measure: HB2659

HB 2659

I am so ready for "Climate Friendly and Equitable Communities". I feel strongly that climate change is our biggest challenge and threat along with increasing population. The concept of the climate friendly and equitable communities seems like a fairly straightforward and logical way to finally begin to deal with these challenges. Please allow/require Oregon cities to give it a try. We won't be losing anything and chances are, folks will be very happy with the outcome. They certainly have been in other places in the world.

I urge you to let HB 2659 die quickly as a good faith effort to get to work on the the important issues facing us these days.

Sincerely,
Sarah Deumling
