

Submitter: John Forbes  
On Behalf Of: Oregon Workers in Health Care  
Committee: House Committee On Behavioral Health and Health Care  
Measure: HB3596

Please support the apprenticeship program! It works.

Having been engaged in the sports world for many years with athletes, I have seen that a delay in surgery can often have a negative impact on my clients.

The work force shortages need to be fixed, and this bill is a good bill that will allow people living in all parts of the state to be trained.

I support this bill.
