On Behalf Of: Truthfulness
Committee: Senate Committee On Judiciary
Measure: SB348

Senators of the Judicial Committee:

....who would vote for this monstrosity.....

Consider why you are where you are when it comes to controlling a public viewpoint on guns and their ownership.

Are you really a winner when the path you took to get us here is manipulated by a predominantly censorious media, questionable voting protocol and practices, and saturation of skewed data from the likes of groups such as EveryTown? I heard our own Attorney General use some of that misinformation just the other day. Deplorable.

I witnessed the results of such methodology first hand with the lie an imported CA petitioner tried coaxing me with to sign on to 114. Wonder from where his boldness originates. Wonder how many of his duped are part of your regular audience crowd. You have this narrowly passed and now altered debacle in your hands for reasons you should not be proud of Senators. For some people, the ends justify the means.

To that point, do you really believe releasing criminals, recruiting and paying dangerous people to live on our streets, bringing them from other states and even countries is enhancing livability in Oregon? How obviously you set the stage for an ultimate agenda. Fear works and you work it well. Your own personal bubble must be pretty comfortable, the one I'm very reluctantly helping to pay for, even as you destroy the lives and well being of myself and others. You're quite the public servants.

As the corruption and deterioration of our Country continues within cities predominately run by your party, including the weak ones in mine, I at least can find a semblance of sanity knowing the truth. Despite your ignoring it.

Of the many people trying to get you to hear them, of the real and viable solutions being offered, of the many valuable resources you ignore, I will re-submit just two. I do this in case you want to at least have an attempt at understanding how those of us feel and despair over what you are doing to Oregon. You should at least try to hear us.

Sincerely,

Sally Klein

Why Meadow Died: The People and Policies That Created The Parkland Shooter and
Endanger America's Students

amazon.com

Voted by Book Authority as one of the ten best social policy books of all time!

The Parkland school shooting was the most avoidable mass murder in American
history. And the policies that made it inevitable are being forced into public schools
across America.

“After my sister Meadow was murdered at Marjory Stoneman Douglas High School,
the media obsessed for months about the type of rifle the killer used. It was all
clickbait and politics, not answers or justice. That wasn’t good enough for us. My dad
is a real tough guy, but Meadow had him wrapped around her little finger. He would
do anything she wanted, and she would want him to find every answer so that this
never happens again.

My dad teamed up with one of America’s leading education experts to launch his own
investigation. We found the answers to the questions the media refused to ask.
Questions about school safety that go far beyond the national gun debate. And the
answers to those questions matter for parents, teachers, and schoolchildren
nationwide.

If one single adult in the Broward County school district had made one responsible
decision about the Parkland shooter, then my sister would still be alive. But every bad
decision they made makes total sense once you understand the district’s politically
correct policies, which started here in Broward and have spread to thousands of
schools across America.”
