

Submitter: Craig Chambers

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB348

Due to Bruen ruling this is unconstitutional for 1. It is also goes against common use while once again turning legal responsible gun owners into criminals. It takes away not only mine but other people's ability to protect one's self since the only person that you can rely on for protection is yourself. This would increase the amount of victims to all kinds of crime. Due too having been in situations of helplessness before this makes me sick to my stomach not only on a constitutional level. But to the level of I'm scared that this would take away my common means of safety not just for myself but loved ones and family.
