

Submitter: Zachariah Bubar
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB348

To whom it may concern

This bill was dropped after business hours just before the weekend with little notice to the public, a large number of whom it will immediately make criminals and impose unfair costs and financial strain on. It focuses on items that are already being tied up in court to determine their constitutionality as well as things that have already been deemed unconstitutional by the Supreme Court. This is just another attempt to pull at the heart strings of people who don't understand anything about firearms or the people who lawfully own and use them. It's an unfair, unconstitutional, hate mongering piece of legislation and we will NOT stand for it!!
